

# Brent Wilde

## About Brent

Growing up in Kingston I've taken up many visual hobbies. I've built my love of art and pop culture into inspiration to create my own brand and style. Working hard to get jobs done is one of my strengths; building quick and efficient systems to organize myself and my environment. When brought into a new situation I ask questions and look for new ways to work and learn processes.

---

## Education

2007 Graphic Design Graduate  
Advanced Diploma  
St. Lawrence College  
Kingston ON Canada

## Employment History

[Staples Business Depot.](#) 2007 - present

### Furniture Consultant

Customer Service, Solution Selling, and Decision Making have been skills I have grown working as the Furniture Consultant at Staples Business Depot. Everyday I am greeting new or previous customers in the store, listening to their needs and applying those needs to my product knowledge. With the right decisions I have been successful in maximizing sales opportunities with customers in or outside the store. My goals have always been on making everyone profit.

### Design & Illustration

Talking with clients, we discuss their project in detail until I know I can present them with a creative solution. Working from home I take my knowledge of graphics, color, and fonts to build original art work and designs that speak to the needs of the client. Keeping communication open over e-mail, phone, or person-to-person meetings I have always made my clients happy and confident that I am working for them.
